

Your tasks:

1. Try and view a map on screen that resembles the map in the above image.
2. Find out which Ordnance Survey maps you are viewing and the date of publication.

Tips:

- **Location** – the map image is of Cheddar Gorge, in Somerset.
- **Scale** – zoom to a **Local view** (you will find the view name at the bottom right of the map window).
- **Basemap** – select **Vector Map District** (Basemaps button on the map window).
- **Map Content** - find **Map Content** in the sidebar and turn off all layers *except* Natural Features and Height information.
- **Overlays** – we have switched on the **Hill Shading** overlay. Find the Overlays menu and try it out.
- **Map Information** – check this area in the sidebar to find details of your OS maps.
